

GIS Day TM San Diego

Careers in GIS

Wednesday, November 17, 2010
6 to 7:30 pm, G-101

GIS Day

Panel Discussion · Information · Networking · Refreshments

Find out why you should consider a career in GIS!

- Learn about geospatial technology and geographic information systems (GIS).
- Find out why the US Dept. of Labor has identified GIS as a key emerging industry.
- Discover how you can become a GIS Analyst.
- Check out employment opportunities in GIS, one of today's hottest fields!
- Hear from Mesa grads how their GIS degrees helped them change careers, or opened doors for advancement.
- Panelists include faculty, alumni, and GIS and career professionals.

SLO: Participants will identify GIS career areas of interest and pursue job and or internship opportunities.
